The Autocar 1988-06

Automotive Technology James D. Halderman 2009 Covering each area of automotive service, this book will help readers learn how all of the systems within automotive are connected. Our revised format with smaller sections will make it easier for readers to

learn and master the content. Sidebar content provides real world examples of how the content is applied in the automotive service industry. There are also revised photos throughout the text as opposed to line art to help trainees better understand the system and the components involved. In addition, the diagnostic approach to this book helps readers enhance their troubleshooting skills. Perfect for someone just starting out in the industry, this book has a brand new section on Careers in the Automotive Service Area as well as updated information in the section on Tools, Shop Equipment and Measuring.
