Making the Grade Tony Wagner 2003-12-16 This book provides a guide for a long-overdue public dialogue about why and how we need to reinvent our nation's schools. How has the world changed for our children; what do all students need to know in light of these changes; how do we hold students and schools accountable for results; what do good schools look like; and what must leaders do to create more of these schools? These are some of the questions that drive this book. The answers emerging to these questions may surprise many. The most successful public schools of the 21st century look a lot more like our 19th century village schools than our current factory model of schooling. This book describes these "new village schools" that have been created in the last decade and suggests that they are a prototype for the schools of the future.

Quotes from the Edge of Nowhere Gary Lewis LeRoy, MD 2020-12-03 Quotes from the Edge of Nowhere: The Art of Noticing Unnoticed Wisdom By: Gary Lewis LeRoy, MD. This book is about a twenty- to forty-year life journey. It recounts ten randomly selected personal quotes, saved in a cookie jar, and creates a life-learning narrative using the origin of the quote. Each story evolves by looking back at the signposts and hints of wisdom sprinkled along the author's life path. Many of these events whispered subtle quotes of wisdom to his conscience. It was up to the author to make sense of them or proceed on life's path, having missed an opportunity to obtain wisdom. All of us are on a similar journey cluttered with obstacles of the human condition. It is the author's desire that this little book of hope and inspiration will serve as a torchlight to illuminate the way on the reader's journey toward a more joyful life—one filled with knowledge, truth, and wisdom.

New York Politics Edward V Schneider 2015-01-28 Most New Yorkers have very little knowledge of how influence is wielded in Albany. This acclaimed book offers a chance to look behind those closed doors. The authors - an Albany-based political scientist and a former State Assembly member, now joined by an expert on political blogging and networking - infuse their discussion of institutions and processes with the drama and significance of real power politics. Completely revised and updated with extensive new material, the book covers recent political developments and electoral contests as well as all the basics: constitutional issues; historical, economic, social, and demographic factors; the functioning of executive, legislative, and judicial institutions; urban, local, and special district governments; parties, interest groups, and bureaucracies; and, finance, budgets, health, education, and welfare programs. Throughout, the authors are attentive to the many paradoxes and dualities that distinguish political, social, and economic life in the Empire State.

Stepping In, Stepping Out Joshua M. Gold 2015-11-17 This much-needed resource offers insight into building and maintaining satisfying and successful stepfamily relationships. As the number of stepfamilies continues to increase, counselors and other mental health professionals are likely to encounter clients seeking help in navigating these often complicated relationships. In this book, Dr. Gold emphasizes the principles and practices of narrative therapy as a means to address key concerns within the family system, reauthor dominant social myths surrounding stepfamily life, and create realistic treatment plans that are inclusive of all members of the family. Detailing the inherent strengths and challenges of the stepfamily experience, he provides an in-depth examination of the roles of each member in a blended family, including stepfathers and stepmothers, ex-spouses, grandparents, and children. This book is an excellent guide to thoughtful, practical, and empirically validated interventions for helping stepfamilies thrive. *Requests for digital versions from ACA can be found on www.wiley.com. *To purchase print copies, please visit the ACA website *Reproduction requests for material from books published by ACA should be directed to permissions@publishing.com.

Bail Me Out! Gerald W. Bracey 2000-04-11 In this handy question-and-answer format, Bracey looks at nine tough questions and backs up answers with thoughtful explanation. A brief historical look at America's loss of confidence in public schools is presented to show how data have been used to create half-truths and erroneous positions. Copyright © Libri GmbH. Social Inequality Kathryn Neckerman 2004-06-18 Inequality in income, earnings, and wealth has risen dramatically in the United States over the past three decades. Most research into this issue has focused on the causes—global trade, new technology, and economic policy—rather than the consequences of inequality. In *Social Inequality*, a group of the nation's leading social scientists opens a wide-ranging inquiry into the social implications of rising economic inequality. Beginning with a critical evaluation of the existing research, they assess whether the recent run-up in economic inequality has been accompanied by rising inequality in social domains such as the quality of family and neighborhood life, equal access to education and health care, job satisfaction, and political participation. Marcia Meyers and colleagues find that many low-income mothers cannot afford market-based child care, which contributes to inequality both at the present time—by reducing maternal employment and family income—and through the long-term consequences of informal or low-quality care on children's educational achievement. At the other end of the educational spectrum, Thomas Kane links the growing inequality in college attendance to rising tuition and cuts in financial aid. Neil Fligstein and Taek-Jin Shin show how both job security and job satisfaction have decreased for low-wage workers compared with their higher-paid counterparts. Those who fall behind economically may also suffer diminished access to essential social resources like health care. John Mullahy, Stephanie Robert, and Barbara Wolfe discuss why higher inequality may lead to poorer health: wider inequality might mean increased stress-related ailments for the poor, and it might also be associated with public health care policies that favor the privileged. On the political front, Richard Freeman concludes that political participation has become more stratified as

incomes have become more unequal. Workers at the bottom of the income scale may simply be too hard-pressed or too demoralized to care about political participation. Social Inequality concludes with a comprehensive section on the methodological problems involved in disentangling the effects of inequality from other economic factors, which will be of great benefit to future investigators. While today's widening inequality may be a temporary episode, the danger is that the current economic divisions may set in motion a self-perpetuating cycle of social disadvantage. The most comprehensive review of this quandary to date, Social Inequality maps out a new agenda for research on inequality in America with important implications for public policy.

Creating a Meaningful Life Shannon Hodges 2022-10-27 Creating a Meaningful Life builds on the tenets of mindfulness-based cognitive therapy (MBCT) to answer some of life's basic questions, such as "How do I create a meaningful, purposeful life?" and "Is the life I am living one that brings me fulfillment, purpose, and a sense of inner peace?" Using a variety of techniques, including journaling, grounding exercises, cognitive self-talk restructuring, and more, chapters invite counseling professionals and students to explore their inner landscape, better understand themselves and find communion with others.

Der Alchimist Paulo Coelho 2013-01-22 Santiago, ein andalusischer Hirte, hat einen wiederkehrenden Traum: Am Fuß der Pyramiden liege ein Schatz für ihn bereit. Soll er das Vertraute für möglichen Reichtum aufgeben? Santiago ist mutig genug, seinem Traum zu folgen. Er begibt sich auf eine Reise, die ihn über die Souks in Tanger bis nach Ägypten führt, er findet in der Stille der Wüste auch zu sich selbst und erkennt, dass das Leben Schätze bereithält, die nicht mit Gold aufzuwiegen sind.
