Medieval London Caroline Barron 2017-11-30 Caroline M. Barron is the world's leading authority on the history of medieval London. For half a century she has investigated London's role as medieval England's political, cultural, and commercial capital, together with the urban landscape and the social, occupational, and religious cultures that shaped the lives of its inhabitants. This collection of eighteen papers focuses on four themes: crown and city; parish, church, and religious culture; the people of medieval London; and the city's intellectual and cultural world. They represent essential reading on the history of one of the world's greatest cities by its foremost scholar.

The Oxford History of the Laws of England: The Canon law and Ecclesiastical jurisdiction from 597 to the 1640s R. H. Helmholz 2003 "The Oxford History of the Laws of England" provides a detailed survey of the development of English law and its institutions from the earliest times until the twentieth century, drawing heavily upon recent research using unpublished materials.

Arch Conjurer of England Glynn Parry 2012-04-24 Outlandish alchemist and magician, political intelligencer, apocalyptic prophet, and converser with angels, John Dee (1527-1609) was one of the most colorful and controversial figures of the Tudor world. In this fascinating book—the first full-length biography of Dee based on primary historical sources—Glyn Parry explores Dee's vast array of political, magical, and scientific writings and finds that they cast significant new light on policy struggles in the Elizabethan court, conservative attacks on magic, and Europe's religious wars. John Dee was more than just a fringe magus, Parry shows: he was a major figure of the Reformation and Renaissance.

Restoration, Reformation, and Reform, 1660-1828 Jeremy Gregory 2000-04-20 This wide-ranging and original book makes a significant contribution to our understanding of

the Church of England in the long eighteenth century. It explores the nature of the Restoration ecclesiastical regime, the character of the clerical profession, the quality of the clergy's pastoral work, and the question of Church reform through a detailed study of the diocese of the archbishops of Canterbury. In so doing the book covers the political, social, economic, cultural, intellectual and pastoral functions of the Church and, by adopting a broad chronological span, it allows the problems and difficulties often ascribed to the eighteenth-century Church to be viewed as emerging from the seventeenth century and as continuing well into the nineteenth century. Moreover, the author argues that some of the traditional periodizations and characterisations of conventional religious history need modification. Much of the evidence presented here indicates that clergy in the one hundred and seventy years after 1660 were preoccupied with difficulties which had concerned their forebears and would concern their successors. In many ways, clergy in the diocese of Canterbury between 1660 and 1828 continued the work of seventeenth-century clergy, particularly in following through, and in some instances instigating, the pastoral and professional aims of the Reformation, as well as participating in processes relating to Church reform, and further anticipating some of the deals of the Evangelical and Oxford Movements. Reluctance to recognise this has led historians to neglect the strengths of the Church between the Restoration and the 1830s, which, it is argued, should not be judged primarily for its failure to attain the ideals of these other movements, but as an institution possessing its own coherent and positive rationale.

Westminster Abbey T. W. T. Tatton-Brown 2003 An account of the history, architecture and monuments of the chapel, the final, exquisite flowering of the gothic style.

Notices Relative to the Early History of the Town and Port of Hull Charles Frost 1827

Londinopolis, C.1500 - C.1750 Mark S.R. Jenner 2000 Events such as the Fire of London and the Plague, and historic locations like the Globe Theatre, are part of London's heritage. Yet until recently, the history of the city between 1500 and 1750 has been little studied. During this period, London's population soared from around 50,000 to nearly half a million--the demographic explosion transformed the city to a metropolis. London became a center of new social and sexual identities and a solvent of older, more hierarchical forms of social organization. The essays in this volume cover the themes of polis and the police, gender and sexuality, space and place, and material culture and consumption. Within these themes are thieves, prostitutes, litigious wives, the poor, disease, "great quantities of gooseberry pye," and the taxing question of fresh water.

Cheshire and the Tudor State 1480-1560 Tim Thornton 2000 The palatinate of Chester survives Tudor centralisation.

Das Layout-Buch Gavin Ambrose 2015-03-16 Ausgehend von theoretischen Grundlagen und der sich wandelnden ästhetische Auffassung von Layouts zeigen die Autoren die Einflüsse des Layout Designs auf die Kunst, das Produktdesign und die Architektur auf. Mit zahlreichen exzellenten Beispielen bebildert und anschaulich geschildert beleuchten sie alle Aspekte, die für den Designer relevant sind. Ein Band, der sich an Studierende der Bereiche Grafikdesign, Fotografie, Neue Medien, Industrie- und Produktdesign richtet, aber ebenso aufschlussreich für die alten Hasen der Kreativbranche ist.
