**The Inventor's Secret** Suzanne Slade 2015-09-08 Both Thomas Edison and Henry Ford started off as insatiably curious tinkers. That curiosity led them to become inventors—with very different results. As Edison invented hit after commercial hit, gaining fame and fortune, Henry struggled to make a single invention (an affordable car) work. Witnessing Thomas's glorious career from afar, a frustrated Henry wondered about the secret to his success. This little-known story is a fresh, kid-friendly way to show how Thomas Edison and Henry Ford grew up to be the most famous inventors in the world—and best friends, too.

**My Crazy Inventions Sketchbook** Lisa Regan 2015-10-06 Do you have some crazy inventions up your sleeve?! This book is jam-packed with Andrew Rae's amazing drawings showing all sorts of real inventions that seem too weird to work. How about a dog umbrella? A submarine that looks like a plane... or even a shark. A swimming machine where you don't get wet? A car wash for people? Someone has even made a device to charge your phone using a hamster! There is plenty of inspiration to get kids' minds going, and plenty of room to add their own crazy inventions to the mix. They can design the best dune buggy ever, create a brand new sweet to share with the world, or even draw their very own Transformer dinosaur! Includes a patent certificate for their very own crazy invention!

**Famous Inventors & Inventions** Speedy Publishing 2014-09-30 Famous inventors and the inventions they develop is a fascinating area of historical study that is usually far too advanced for young children. However, a Famous Inventors & Inventions Picture Book breaks that information down in a way that is interesting and engaging to young boys and girls. Instead of pages and pages of text that makes no sense to them, children can see a picture of the inventor alongside the invention they created. This helps to begin laying the foundation for this knowledge in children at a young age and may even spark their interest and imagination in this area.

**Connect the Dots with Kid Inventors** Jasmine Renner 2020-06-11 Children have crossed the lines and broken the boundaries and limitations that adults are often trapped in, for ages. From the 18th century to the 21st century, children have invented and patented their inventions. They have made the world a better place by the creation of their minds. Whether by accident (Eureka) moments or deliberately, or a solution to a limitation they encountered, they have created and invented. This dot-to-dot activity workbook is a fun resource that can be used by children from K-6. It can be used for party entertainment and games, school worksheet activities in STEM classes and for history lesson plans and projects on inventors and their inventions. This resource can also be used by families and children as a fun and past time for connecting the dots. Join your child(ren) or students as they connect the dots with kid inventors. Watch their curiosity grow to find out "who" and "what" emerges. This connect the dots for inventors activities worksheet answer key is provided at the back of the book. Enjoy the world of children as they invent and lead the way for adults to "Break the Limits" and cross lines. Happy connecting! This can be a fun activity for kids as they try to guess who the inventor is and what she invented. Included is also additional connect the dots worksheets of female kid inventors. I flipped the sequence on this one. Instead of you guessing who the inventor is, you must try to guess what they invented and when (at what age) they invented it. You get to enjoy a "past time" and an educational learning tool all wrapped in one.
