Learning with Computers II (Level Orange, Grade 8) H. Albert Napier 2012-03-26 The new second edition **LEARNING WITH COMPUTERS I (Level Green, Grade 7)** is a revision of the first edition project-based text to cover Microsoft Office 2007 and 2010. There is also a companion text, **LEARNING WITH COMPUTERS II (Level Orange, Grade 8)**. This series for middle school students delivers a strong foundation in keyboarding and computer applications. In this project based text, students are introduced to the Explorers Club where four young members of the club -- Luis, Ray, Julie, and Lin -- guide students on Microsoft Office explorations. Along the way, each student keeps a personal journal about their explorations. The text offers multiple opportunities to reinforce and maintain basic keyboarding, word processing, spreadsheet, presentation, database, graphics, and Internet skills. Students are also introduced to new grade-level appropriate computer skills based on the National Educational Technology Standards (NETS). Additionally, the text emphasizes research, reading, and writing activities relevant to social studies, science, math, and language arts curriculum. The text for use with Windows applications, is divided into 4 units; Word Processing, Spreadsheets, Presentations (Graphics, Multimedia, and Integration) and Databases. Each unit contains multiple projects for a total of 18 projects per text, plus an introductory project. Each project focuses on a group of grade-level appropriate objectives for particular computer applications. Several hands-on activities within each project are designed around these objectives. This one-semester text can be used as a stand alone or in conjunction with South-Western's MicroType keyboarding software. MicroType is an engaging, easy-to-use program that teaches new-key learning and skill building. Features include 3-D animations, videos, and fun interactive games. Sewing Stories: Harriet Powers' Journey from Slave to Artist Barbara Herkert 2015-10-13 An illuminating picture book biography of an artist and former slave whose patchwork quilts bring the stories of her family to life. Harriet Powers learned to sew and quilt as a young slave girl on a Georgia plantation. She lived through the Civil War and Reconstruction, and eventually owned a cotton farm

with her family, all the while relying on her skills with the needle to clothe and feed her children. Later she began making pictorial quilts, using each square to illustrate Bible stories and local legends. She exhibited her quilts at local cotton fairs, and though she never traveled outside of Georgia, her quilts are now priceless examples of African American folk art. Barbara Herkert's lyrical narrative and Vanessa Newton's patchwork illustrations bring this important artist to life in a moving picture-book biography.

Nature of Mathematics Karl J. Smith 2016-01-01 Written for liberal arts students and based on the belief that learning to solve problems is the principal reason for studying mathematics, Karl Smith introduces students to Polya's problem-solving techniques and shows them how to use these techniques to solve unfamiliar problems that they encounter in their own lives. Through the emphasis on problem solving and estimation, along with numerous in-text study aids, students are assisted in understanding the concepts and mastering the techniques. In addition to the problem-solving emphasis, THE NATURE OF MATHEMATICS is renowned for its clear writing, coverage of historical topics, selection of topics, level, and excellent applications problems. Smith includes material on such practical real-world topics as finances (e.g. amortization, installment buying, annuities) and voting and apportionment. With the help of this text, thousands of students have experienced mathematics rather than just do problems--and benefited from a writing style that boosts their confidence and fosters their ability to use mathematics effectively in their everyday lives.
