Revisiting Italy Rebecca Butler 2021-05-06 With the rise of mass tourism, Italy became increasingly accessible to Victorian women travellers not only as a locus of artistic culture but also as a site of political enquiry. Despite being outwardly denied a political voice in Britain, many female tourists were conspicuous in their commitment to the Italian campaign for national independence, or Risorgimento (1815-61). Revisiting Italy brings several previously unexamined travel accounts by women to light during a decisive period in this political campaign. Revealing the wider currency of the Risorgimento in British literature, Butler situates once-popular but now-marginalized writers: Clotilda Stisted, Janet Robertson, Mary Pasqualino, Selina Bunbury, Margaret Dunbar and Frances Minto Elliot alongside more prominent figures: the Shelley-Byron circle, the Brownings, Florence Nightingale and the Kemble sisters. Going beyond the travel book, she analyses a variety of forms of travel writing including unpublished letters, privately printed accounts and periodical serials. Revisiting Italy focuses on the convergence of political advocacy, gender ideologies, national identity and literary authority in women's travel writing. Whether promoting nationalism through a maternal lens, politicizing the pilgrimage motif or reviving gothic representations of a revolutionary Italy, it identifies shared touristic discourses as temporally contingent, shaped by commercial pressures and the volatile political climate at home and abroad.

The Cambridge Introduction to Travel Writing Tim Youngs 2013-05-27 Surveying various works of travel literature, this text argues that travel writing redefines the myriad genres it often comprises.

Travellers in Africa Tim Youngs 1994 The writings of travellers in Africa during the Golden Age of Victorian exploration often tell us more about 19th-century Britain than about Africa. In this text, the author places these narratives in their historical and cultural context, and examines how racial images may be affected by social change and literary form.

Visual Culture and Arctic Voyages Eavan O'Dochartaigh 2022-02-28 In the mid-nineteenth century, thirty-six expeditions set out for the Northwest Passage in search of Sir John Franklin's missing expedition. The array of visual and textual material produced on these voyages was to have a profound impact on the idea of the Arctic in the Victorian imaginary. Eavan O'Dochartaigh closely examines neglected archival sources to show how pictures created in the Arctic fed into a metropolitan view transmitted through engravings, lithographs, and panoramas. Although the metropolitan Arctic revolved around a fulcrum of heroism, terror and the sublime, the visual culture of the ship reveals a more complicated narrative that included cross-dressing, theatricals, dressmaking, and dances with local communities. O'Dochartaigh's investigation into the nature of the on-board visual culture of the nineteenth-century Arctic presents a compelling challenge to the 'man-versus-nature' trope that still reverberates in polar imaginaries today. This title is also available as Open Access on Cambridge Core.

Travel Narratives, the New Science, and Literary Discourse, 1569-1750 Judy A. Hayden 2012 The focus of this volume is the intersection and the cross-fertilization between the travel narrative, literary discourse and the New Philosophy in the early modern to early eighteenth-century historical periods. Contributors examine how, in an historical era which realized an emphasis on nation and during a time when exploration was laying the foundation for empire, science and the literary discourse of the travel narrative become intrinsically linked.

Romania: Transylvania Lucy Mallows 2017-11-15 This new, third edition of Bradt's Romania: Transylvania remains the only standalone English language guide to this legendary and enchanting region. Comprehensive chapter-per-county coverage is offered, including details to cater for the diverse range of travellers to the region, from city breaks to rural escapes, ski enthusiasts to charity volunteers. Thoroughly updated, this new edition reflects all the changes of the past few years, from improved transport infrastructure (in particular the regional airports at Cluj, Sibiu and Târgu Mures) to the completion of new motorway routes, such as that between Sibiu and Deva. Also covered are a number of striking new accommodation options: for example the sustainable guesthouse in Valea Zalanului owned by HRH The Prince of Wales, and the mountaintop retreat of Raven's Nest in the Apuseni Mountains. More attractions have opened up, such as Baroque palaces formerly owned by Hungarian aristocrats, seized under the Communist regime and now being restored by the descendants of their original owners. And the region is developing its offer for new types of tourism, such as summer rock festivals, notably the Untold Festival at Cluj and Electric Castle Festival at Bontida. Transylvania, literally the 'land beyond the forest', is a wild, wooded, intensely romantic region, filled with mountains, gorges and valleys, myths and legends, dragons, bears, wolves - and vampires. Bram Stoker called it 'one of the wildest and least-known parts of Europe' a description which remains true today. One of the most beautiful regions in central Europe and home to three UNESCO World Heritage Sites, Transylvania preserves its cultural and artistic treasures in a unique landscape, bordered on three sides by the Carpathian Mountains. The hay meadows of the lower Carpathians form a man-made, high nature-value grassland ecosystem of extraordinary diversity, offering a beautiful display of wild flowers. The Carpathians are home too to lynx, wild boar, and one of Europe's largest populations of brown bear. Other natural phenomena include the Scarisoara ice cave in the Apuseni Mountains and the Santa Ana volcanic crater lake in Harghita. Whatever your interests, with Bradt's Romania: Transylvania, you can discover all of the region's many and varied attractions.

A Wider Range Maria H. Frawley 1994 *A Wider Range* makes an exciting new addition to Victorian cultural studies by examining the multifarious forms of writing that emerged out of Victorian women's travels throughout the wider world. Looking closely at representative examples of Victorian women's published accounts of their travels, Frawley argues that many of these women conceived of foreign lands as sites in which to situate their bid for public authority and cultural credibility. While this travel writing reveals the imaginative investments that Victorians made in the wider world, it also exposes the extent to which women used these imaginative investments to professional advantage, finding in different places opportunities for personal and professional self-fashioning. After an introduction that surveys the field of women's travel writing and places it within current thinking about Victorian configurations of gender and genre, Maria H. Frawley studies the kinds of professional identities cultivated in this literature. Two chapters focus on the major bodies of women's travel writing, those written by tourist women and those written by women who constructed identities as adventuresses. These chapters include discussion of travel writing by such major figures as Mary Shelley, Isabella Bird Bishop, and Mary Kingsley as well as that of less-known travel writers such as Charlotte Eaton, Frances Elliot, Amelia Edwards, and Florence Dixie. She then assesses the work of more select groups of women, including Harriet Martineau, Anna Jameson, Lady Eastlake, and Frances Power Cobbe, who used their travel experiences to fashion professional identities as sociologists, ethnologists, historians, and art historians. "These women discovered that they could use their writing as a forum to rethink the doctrine of "separate spheres," Frawley argues. Taken cumulatively, their work represents an unprecedented effort to cross psychological and institutional barriers perceived to be so central to Victorian culture. Despite - or perhaps because of - its noncanonical status, this literature challenges the stability of the "separate sphere" ideology that dominates thinking about Victorian women, their writing, and their culture. *A Wider Range* is certain to be of interest to anyone interested in Victorian literature, gender studies, and cultural studies.

Essays on Unfamiliar Travel-Writing John Anthony Butler 2017-01-06 This book comprises a number of essays on travel-narratives which are somewhat unknown to the general reader. They include writing by people who travelled from the East to the West, as well as those going the usual way. The travellers include a seventeenth-century accountant, a Persian shah, an Indian rajah and a Hawaiian king, as well as an Irish doctor, an American journalist and a Japanese poet. The book presents these travellers in an informal manner, although there are discussions about identity, "otherness" and stereotyping as they are displayed in the narratives. The book will appeal to students and academics, as well as the general reader.

OPERATIONS MANAGEMENT AND STRATEGIES IN TRAVEL INDUSTRY CUNEYT MENGÜ, Ph.D. 2020-11-01 When overseas travel agency owners and directors, predominantly from Middle Eastern countries visited my Istanbul office and saw my "Travel Management" book published in 2018 in Turkish, insisted that I publish the same book in English. These comments made me excited and encouraged to publish the book in English with some revisions and additions. Travel and tourism industry is one of the world's largest industries and a dynamic engine of economic development of the countries. It is a great source of income and employment for countries that receive more international tourists. For this reason, the countries have increased their investment in the travel and tourism industry. Tour operators and travel agencies have the major role for the development of tourism. Their business has vastly changed in the past 20 years. They have to continuously adapt and redefine their roles to the changing environment and technology. As a result of this change, different approaches in management, operation and marketing strategies in the travel industry have emerged. From tourism products and services to operation and destination management, from management functions to the distribution channels, from reservation systems to marketing functions, almost all travel concepts have changed shape. In travel agency business besides the traditional (classical) system used for many years, neoclassical system and modern (contemporary) systems such as online travel agencies (OTA's) and destination management companies (DMC's) have emerged, intermediaries diversified and increased. Pursuant to these developments travel operators who can keep up with these changes have created a wide academic and practical concept, theoretical discussions and most importantly different industrial structures. This book provides a wide perspective with modern concepts to the operation management and marketing strategies in travel industry and it is divided into 12 chapters. Each chapter starts with learning outcomes. Basic principles and concepts of subjects are mentioned both theoretically and practically supported by tables, graphs and figures for a better understanding of specific chapters.

Volunteers of America Dennis Carlson 2012-09-15 This book chronicles the life of a Peace Corps volunteer in Libya in the late 1960s, including the first American account of living through the revolution that brought Gaddafi to power. The author moves from campus protests at the University of Washington in the spring of 1968, to Peace Corps training in Utah and the Navajo Nation in New Mexico, to living and teaching in an isolated village in Libya, to a European summer vacation, to the revolution that led to charges that Peace Corps volunteers were CIA agents, to returning to the U.S. in October, 1969, to witness the anti-war moratorium on the Capital Mall in Washington, D.C. The heart of the story is the author's own evolving journey as a teacher, during which time he began to question both the official curriculum of English instruction and the broader purposes of teaching for liberation. This is also a story about the author's education and re-education in Libya as he struggles to learn the rules of everyday life (including the rules of gender and sexuality) as a stranger in the village, and as he begins to see and appreciate the world through somewhat different eyes. Part of his education was through a reconstruction of the history of the village in terms of wave after wave of European colonizers—from the time of the Romans, to the Italian fascist colonizers, to the liberation of the village by the British chasing Rommel's troops across the desert, to its decline, renaming, and reappropriation as an Arab village. The author brings all this up to the late 1960s by describing the role of U.S. foreign policy in the "development" of Libya in league with global oil, and with the support of the largest air base outside the continental U.S. near Tripoli. This is, finally a coming of age story—about a young man who was desperately looking for something to believe in and live for, and more pragmatically looking for a way out of the draft and Vietnam, and out of an America that seemed to be slipping into collective madness. It is a story (like all coming of age stories) about setting off on a great youthful journey of self-discovery, and a rekindling of the human spirit. Audiences for this book include: college students (undergraduate and graduate) in education, cultural studies, and Arabic studies; former Peace Corps volunteers and those interested in the Peace Corps and its history; readers interested in recent developments in Libya looking for some historical perspective on how Gaddafi came to power and why the revolution turned anti-American; and all those interested in a first-hand account of what America was like at the end of a decade ushered in with Kennedy idealism and the Peace Corps. A powerful story of exile and a search for home, *Volunteers of America* is the Odyssey of a generation. Awakening to a world in flames, inspired by

visions of liberation erupting everywhere, Dennis Carlson heard the chords of freedom echoing all around him and faced the question: Which side are you on? Here is Carlson's poignant and still timely answer to that question. - Bill Ayers, author of Fugitive Days and many other books on education, Distinguished Professor of Education, University of Illinois, Chicago.

Travel in Early Modern Europe Antoni Maczak 1995 Most of us today know little about the conditions under which people travelled in early modern Europe. Travellers' accounts from the period generally omit detailed descriptions of the state of roads, the discomfort of a carriage or a coach, or the harshness of a landscape, even though these formed the everyday reality of travel for most people. In this wide-ranging book, Maczak sets out to fill this gap in our knowledge by vividly reconstructing the lives and daily experiences of travellers in the sixteenth and seventeenth centuries. He analyzes the reasons why they travelled, what they hoped to gain from it, and how they were changed by the experience. He discusses the practical problems encountered by travellers: difficulties with transportation, the danger of accidents, and the problem of finding suitable conveyances and guides. He describes the dangers presented by inhospitable weather and terrain, wild animals, marauding soldiers, bandits and highwaymen. He analyses travellers' lodges and food, the relationships they formed on their journeys, and their encounters with foreign bureaucracies, customs and border controls. Maczak paints colourful portraits of a wide variety of travellers, from the splendid entourages of bishops and ambassadors, to the lone pilgrims, artists and scholars travelling for their own pleasure and enlightenment.
